Wilmette History Memory Game

**Directions:** The pictures below are all of objects in the Wilmette Historical Museum. Print out all of the pages. Glue each page of images to a piece of construction paper. The images should be face up; be sure to put glue all over the page, including the middle. After the glue dries, cut out each image to make cards.

**To Play:** To begin play, place all the images face down and shuffle them up. Make a grid of all the images so it is easier to remember the location of individual images. Players take turns trying to find matches. When a player makes a match, he/she keeps the pair. Keep playing until all pairs are matched. The player with the most pairs at the end of the game is the winner.
